

 Bioscor®
Actives+
by Dr. Alan Ong

Bioscor Skincare is enjoyed by many satisfied patients, and the Actives+ range shows our commitment in providing the highest quality products that give maximum results.

Bioscor Actives+ products are medically formulated and designed for those with problem skin.

They contain very active, concentrated ingredients that should only be recommended by Bioscor doctors and skin consultants.

These ingredients penetrate and treat the skin at a deeper level, helping you achieve healthy and beautiful skin, and **A More Beautiful You.**

Deep Cleansing Wash

A deep cleansing wash with **beta-hydroxy acid (BHA)** for a thorough wash, dissolving oil deep down inside the pores and removing dead skin cells. Suitable for normal/oily acne prone skin.

Facial Rejuvenation Toner

A rejuvenating toner that aims to remove dead skin cells whilst promoting new fresh skin cells. Its active ingredient includes glycolic acid, which is an **alpha-hydroxy acid (AHA)**. Suitable for normal/oily acne prone skin and aged/sun-damaged skin. No longer will dead skin cells have a chance to block up your pores!

Clear Skin Gel – Very Mild

This is a powerful treatment toner that has many advantages for the skin. It contains a very potent form of **Vitamin A**. Its main actions are to decrease oil gland activity, increase collagen production and lighten pigmentation.

It can be used for the following conditions:

Acne and oily skin, open pores and acne scarring, dull and uneven skin tone, freckles and pigmentation, fine wrinkles and flaccid skin.

Clear Skin Gel

This is a powerful treatment toner that has many advantages for the skin. It contains a very potent form of **Vitamin A**. Its main actions are to decrease oil gland activity, increase collagen production and lighten pigmentation.

This is a stronger version of Clear Skin Gel - Very Mild. It is 4 times stronger.

Hydrating Moisturiser Life

This is a moisturiser for normal to oily/acne prone skin. It is also suitable for men of all skin types. It is a light moisturiser and is more like a lotion rather than a cream. Its advantages are that it does not block the pores and is non-irritating.

It effectively hydrates the skin and maintains the perfect moisture balance.

Hydrating Moisturiser

This is a moisturiser for normal to dry/sensitive skin. It is a cream moisturiser that does not block the pores and is nonirritating, whilst providing the skin with a potent combination of essential antioxidants.

Fade Away High Strength

This product contains a powerful whitening agent, designed to fade away any form of pigmentation: Hormonal pigmentation (melasma), freckles, sunspots, dark acne scarring. The penetration of this product is maximised when used on top Bioscor Active+ Clear Skin Gel.

Rejuvenating Oil (with Vitamin C & E)

This soothing oil benefits clients with dry and sensitive skin. It has incredible moisturising and healing properties. It contains very high concentrations of **Vitamin C** and **Vitamin E**. It can be used on the whole face or on irritated skin areas. It is ideal for travelling where skin can easily become dehydrated, resulting in dry, flaky and sensitive patches.

Skin Pro Spray

This is a natural organic spray derived from **young wheatgrass**. It is useful as a natural anti-inflammatory, wound healer and skin connective tissue softener and repairer. It can be sprayed on irritated or inflamed skin conditions e.g. eczema, psoriasis and rosacea. It can also heal insect bites and minor wounds e.g. burns.

Skin Pro products are ideal and safe for both adults and children, making it an essential household product.

Skin Pro Cream

This is a natural cream derived from **young wheatgrass**. It is useful as a natural anti-inflammatory, wound healer and skin connective tissue softener and repairer. This product offers a lot more moisture to the skin than the antioxidant spray, making it more ideal for dry, chapped skin on face and hands.

Used in conjunction with Bioscor Actives+ Rejuvenating Oil, Skin Pro Cream can repair almost any form of irritated skin overnight.

SunShield+ spf 30+

This is a non-chemical sunblock that protects the skin from both UVA and UVB rays. It is designed to suit all skin types and it does not block pores. It has a very high Sun Protection Factor. Ideal for those clients who are exposed to excessive sun damage or who have pigmentation problems.

Healing Essence

A soothing oil that is ideal to treat unwanted marks, blemishes and scars etc. It is especially good for applying on fresh wounds e.g. after mole removal treatment or on post surgical scars.

If you know you scar easily from the slightest trauma to the skin, carry this product with you at all times!

Lash Actif

This gel is designed to increase hair growth to the eyebrows and eyelashes using Dr. Alan Ong's unique formulation based on Bioscor's successful Natural Hair Regrowth Program. No need for extensions or fake eyelashes anymore!

Body Rejuvenating Toner

This toner aims to get rid of dead skin cells and dissolve oil whilst promoting new fresh skin cells. Its active ingredient includes glycolic acid, which is an **alpha-hydroxy acid (AHA)**. It can be used to treat body acne, body acne scarring, stretchmarks and other body blemishes.

Attain a deeper effect by using this product with a derma roller.

Slimming Cream

This cream helps reduce cellulite and fat cells by increasing circulation, fat metabolism and local lymphatic drainage. You can really feel the fat cells burning up!

Firming Lotion

This lotion is formulated to tighten loose skin on problem areas by stimulating collagen for a firmer skin tone.

Acne Therapy Gel

This product is used as a 'spot' treatment for active pimples. It helps pimples heal faster, by reducing redness and size quickly. You will be amazed at how fast this works!

Advice from Bioscor doctors and skin consultants is required as not all products are suitable for all skin types.
